Child Care Centers - Certificated Staff Ratio Requirement - Alteration

This departmental bill alters a requirement that child care centers serving more than 20 children must have at least one staff member (per every 20 children) who is certified in basic first aid and cardiopulmonary resuscitation (CPR) training. Under the bill, the Maryland State Department of Education (MSDE) is authorized to set the ratio through regulation. **The bill takes effect July 1, 2025.**

Fiscal Summary

State Effect: MSDE can implement the bill's changes with existing resources. Revenues are not affected.

Local Effect: None.

Small Business Effect: MSDE has determined that this bill has a meaningful impact on small business (attached). The Department of Legislative Services concurs with this assessment. (The attached assessment does not reflect amendments to the bill.)

Analysis

Current Law/Background: MSDE advises that, due to a child care workforce shortage across the State, school age programs are experiencing challenges with staff recruitment and retention. Under current regulations, child care centers are required to have a certain number of certified first aid/CPR staff (depending on the number of children), which may be a barrier to hiring new staff. MSDE notes that, once the current statutory requirement is modified, it intends to adopt regulations lowering the ratio to one first aid/CPR certified

staff per every 30 *school age* children (*i.e.*, a child younger than age 16 who attends a public or nonpublic school in grades kindergarten or above).

Additional Information

Recent Prior Introductions: Similar legislation has not been introduced within the last three years.

Designated Cross File: SB 252 (Chair, Education, Energy, and the Environment Committee)(By Request - Departmental - Education) - Education, Energy, and the Environment.

ANALYSIS OF ECONOMIC IMPACT ON SMALL BUSINESSES

TITLE OF BILL: Child Care Centers – Certificated Staff Ratio Requirement – Repeal

BILL NUMBER: HB 150

PREPARED BY: Shayna Cook

PART A. ECONOMIC IMPACT RATING

This agency estimates that the proposed bill:

☐ WILL HAVE MINIMAL OR NO ECONOMIC IMPACT ON MARYLAND SMALL BUSINESS

OR

☒ WILL HAVE MEANINGFUL ECONOMIC IMPACT ON MARYLAND SMALL BUSINESSES

PART B. ECONOMIC IMPACT ANALYSIS

This amendment to statute would allow child care centers and letter of compliance facilities that are small businesses, based on their size or capacity, the opportunity to have fewer staff that need the FA/CPR certification, which will ultimately reduce the cost of staff training. This may encourage additional applications for child care facilities due to lower operating costs. In addition, the change may assist with staff recruitment and retention, which will in turn have a positive impact on the continuity of care for children and families.
